Author and Theologian

**The framework of
“God’s Progressive
Revelation”
explained**

“Theologians recognize God did not reveal everything at once but that He revealed His plan systematically and progressively.”

The Scriptures reveal five distinct periods, administrations, or programs. Every believer in Christ should understand this framework since it is the foundation for understanding Scripture and one’s place in them.

Within this framework, one must master a basic concept:
All Scripture is FOR us, but all Scripture is not TO us.
